Profile

Current student in the Bachelor of Computer Information Systems program at Okanagan College, with a Web Development Certificate, and experienced with building responsive web applications using modern practices. Knowledgeable in both front-end and back-end development, with strong technical abilities and experience collaborating in Agile team environments.

Skills

Languages & Databases: JavaScript, TypeScript, HTML, CSS, Java, Oracle SQL, PostgreSQL

Frameworks & Libraries: React, Next.js, Node.js, Express.js, Bootstrap, Tailwind

Tools: Git, Docker, Excel

Projects

Beauti Bodega — [GitHub Link](#)

A mobile-first e-commerce and social networking application for beauty brands and customers. Built with TypeScript, React, Express.js, Sequelize, PostgreSQL, and Firebase. Implemented user authentication, role-based access for shoppers and brand administrators, product management, shopping cart functionality, and secure password handling using Passport.js and Bcrypt.

Draw Dot — [GitHub Link](#)

A web-based digital drawing and portfolio management application that allows users to create, save, and manage artwork. Built with JavaScript, HTML, CSS, Node.js, and PostgreSQL. Developed canvas functionality and integrated database operations to store and manage user artwork and profiles.
